

Turn off ARP (In NS2)

In mac/arp.cc

```
int
ARPTbl::arpresolve(nsaddr_t dst, Packet *p, LL *ll)
{
    ...
    ...
    if(llinfo == 0) {
        //create a new ARP entry
        llinfo = new ARPEntry(&arphead_, dst);
        //[PH] disable ARP, set mac addr same as ip addr
        llinfo->macaddr_ = dst;
        llinfo->up_ = 1;
        mac_>hdr_dst((char*) HDR_MAC(p), llinfo->macaddr_);
        return 0;
    }
    ...
    ...
}
```
